To whom it may concern:

As a business owner, I have the had to opportunity to interface with many professionals. On occasion, performance by an individual is so noteworthy that I give my personal recommendation. Doug Williamson is an individual of that caliber.

As a partner of BKM Total Office of Texas, I was introduced to Doug over three years ago during the initial planning stages of building Origen's Regional Office and Call Center in Fort Worth, Texas. Throughout this extensive project, I was impressed with Doug's ability to clearly communicate his vision for this new facility. He established expectations directly and set a tone of collaboration with all vendors. I greatly appreciated his care and consideration in establishing a working relationship with the BKM design and furniture team.

Certainly Doug exhibits the skills, talents and experience of a mature business professional. In addition, I found his strong personal values of respect and integrity as characteristics that support him as a strong business leader.

I heartily recommend Doug Williamson to you.

Sincerely yours,

Carlene Wilson
Vice President, Sales and Marketing
